Item No. 61.03

Environmental clearance for the quarry project in Sy. Nos. 781/23-1, 781/1-23-1 pt, 781/1-23-2, at Athikayam Village, Naranamuzhi Panchayath, Ranni Taluk, Pathanamthitta District, Kerala by Sri. Alexander V. John (File No. 1002/EC4/5032/ 2015/ SEIAA)

Project Proponent: Sri. Alexander V. John

Further to the intimation of SEAC, the partner along with the RQP was present in the meeting and RQP made a power point presentation of the salient features of the project. The committee appraised the proposal based on the mining plan, pre-feasibility report and all other documents submitted along with the Form I application. On examination of the satellite image of the proposed quarry it is seen that there are two other quarries within 500m radius of the proposed quarry - one is M/s Manimalethu Crusher Industries (file no. 121/SEIAA/EC4/2200/2013) and another is M/s Kavumkal Granites (file no. 621/SEIAA/EC4/4775/2014) for which EC has been recommended by SEAC. However certificate from District Geologist, Pathanamthitta states that there are no quarries within 500m radius of the proposed quarry. And also the proponent and RQP have not verified this fact. Hence explanation has to be sought from parties concerned for misrepresenting the facts. It is also essential to ascertain whether a cluster situation exists. The proposal is returned to SEIAA for further actions. The proposal shall be considered only after getting necessary directions for SEIAA in this regard.

Item No. 61.04

Environmental clearance for the proposed quarry project in Sy.No. 172(pt) at Kodiyathoor Village, Kozhikode Taluk, Kozhikode District, Kerala by Sri. O. Sivarajan (File No. 917/ SEIAA/EC4/ 3671/ 2015)

Project Proponent: Sri. O. Sivarajan M/s Palickaparambil Granite Works

The Committee after examining the mining plan, prefeasibility report, field inspection report and all other documents submitted, decided to **defer** the item for the submission of Certificate from Village officer as mentioned in 27, 2(f) of KMMC rule that the proposed quarry area is not assigned for any special purposes. Also the proponent shall comply with the following matter. The proposal shall be taken up only after getting the certificate.

1. The entire quarry area should be fenced all around.
2. The approach road negotiating the upper slopes must be well laid and properly surfaced.
3. Working to be in the form of benches. Steep cliff like sections to be left out as danger zones with proper sign boards.
4. Top soil and over burden should be stored in designated place on the lower slope

- away from the working area and provided with protective support walls.
5. Since the quarry falls in the upper slope, storm water management must take into consideration the high velocity of water flowing down the slope from the quarry. Adequate structures must be provided to reduce the velocity. In addition garland drains and catch water drain to be provided. A RWH structure should also be in place.
 6. Assurance that green belt will be provided around the periphery.

Item No. 61.05

Environmental clearance for the Proposed quarry project in Sy. Nos. 1293 & 238 at Ayyankunnu Village, Iritty Taluk, Kannur District, Kerala by Sri. Muhammed Haji Moolayil (File No. 928/SEIAA/EC4/3894/2015)

Project Proponent: Sri. Muhammed Haji Moolayil, M/s Kannur District Black Rock Crushers and Sand Making Industries Pvt. Ltd

The Committee after examining the mining plan, prefeasibility report, field inspection report and all other documents submitted decided to **intimate the proponent to submit the following documents/assurance on the stipulated conditions.**

1. Map showing all lands in possession and the proposed quarry lease area within the total area along with respective survey numbers.
2. The certificate mentioned in 27, 2(f) of KMMC rule that the land is not assigned for special purposes.
3. Top soil and Over burden should be stored in a designated place on the lower northern slope away from the working area and provided with protective support walls.
4. The stream flowing along the boundary should be maintained and protected. The water draining into the proposed RWH will need further clarification before it is let out into this stream.
5. Garland drains and catch water drains are to be provided to the quarry.
6. Assurance that green belt will be provided around the periphery. A separate plot should be set apart for preserving rare plants in the vicinity.
7. The CSR activity needs revision addressing the needs of the locality.

The proposal shall be taken up after getting all documents.

Item No. 61.06

The proposal was appraised by SEAC considering Form I, Form IA, Conceptual plan, field visit report and all other documents and details provided by the proponent as sought by SEAC during the appraisal process.

The proposal is **Recommended for issuance of Environmental Clearance** with general conditions in addition to specific conditions as follows

- 1) Provisions should be provided to use the treated water to maximum possible in the site itself for horticulture and other purposes.
- 2) The land has many trees and endemic plant species which should be protected as far as possible
- 3) A green belt should be provided around the site.
- 4) A level difference of 20m was noticed from south to north side. The cutting and filling should be done with minimum disturbance to the nearby areas or roads. A well designed retention wall should be provided around the site to prevent slope failures.
- 5) Access width as per local body rules shall be provided.

The meeting ended at 5.10 pm with vote of thanks to the Chairman and Members.
